ABOUT ME

Motivated Computer Science student with hands-on experience in front-end development, video editing, and cybersecurity fundamentals. Skilled in building responsive web applications, creating engaging visual content, and optimizing user experience. A fast learner and problem solver with strong analytical thinking and teamwork abilities, aiming to grow as a full-stack developer and cybersecurity professional.

Recognition

- Completed PenTest Cyber Specialist Program – National IT Skillsets Expansion Program
- Google Foundations of Cybersecurity – Coursera
- IBM Full Stack Developer Certification – Coursera
- Cybersecurity Learning Path – TryHackMe

Core Skills

- Front-End Development (HTML, CSS, JavaScript)
- Responsive UI Design
- Video Editing (Premiere Pro, CapCut, After Effects Basics)
- Motion Graphics & Transitions
- Cybersecurity Fundamentals
- Problem Solving & Debugging
- Customer Communication
- MS Office & Documentation

EXPERIENCE

Front-End Developer Intern, Capxa E-commerce

May 2024 – Aug 2024

- Developed and improved responsive UI components for e-commerce platforms.
- Collaborated with backend team to ensure smooth integration and performance.
- Optimized layouts and usability for mobile and desktop users.
- Assisted in testing, debugging, and deployment workflows.

Shopify Store Manager (Self-Managed)

May 2025 – Aug 2025

- Managed customer support operations independently.
- Handled order tracking, complaints, and inquiries professionally.
- Improved customer satisfaction through quick resolution workflows.

Freelance Web Developer & Editor

April 2018 - April 2019

- Built responsive websites for academic and personal projects.
- Focused on UI design, performance, and usability.

AI Video Editor @ StreamEdge Digital

2025 – 2026

- Edited promotional videos, reels, and social media content for clients.
- Added motion graphics, transitions, subtitles, and sound effects.
- Optimized content for platforms like Instagram, TikTok, and YouTube.
- Delivered projects with fast turnaround while maintaining quality.

PROJECTS

SpectraOps (Cybersecurity Website Project)

- Built responsive UI using HTML, CSS, and JavaScript.
- Integrated password strength checker and breach-checking tools.
- Designed interactive layout with dark/light mode.

Library Management System (DB Project)

- Designed ERD and developed SQL-based backend structure.
- Implemented full-stack functionality and documentation.

Financial Calculator Website

- Developed real-time calculators using APIs and JavaScript.
- Implemented charts and multilingual responsive UI.
